

FREEDOM TO ENJOY

DESIGNED FOR ACTIVE PEOPLE  
AT HOME AND IN THE WORKPLACE

The VELA Tango range is designed for active people for use at home or in the workplace. The design is nimble and minimalistic as well as a desire that the chair should be as compact as possible.

The philosophy behind the VELA Tango range has been to develop a chair where the focus is on ergonomics, with our well reputed high quality in mind.

### **SPECIALLY DEVELOPED FOAM ZONES**

Developing the chairs in the VELA Tango range, ergonomics were given priority.

The unique lumbar support assist the back assuming the correct position (a gentle S-shaped spine as seen from the side), thereby ensuring minimal strain on the lumbar vertebrae.

The seats in the VELA Tango range are upholstered with a solid cushion which, thanks to the specially developed foam zones, offers the user optimum sitting comfort. Sitting comfort is therefore ideal, even when the seat is in a forward tilted active position.

### **SAFETY IS A TOP PRIORITY**

The ergonomic armrests are designed to be wider towards the back, following the shape of the chair. Safety has also been integrated into the design of the armrests as they are automatically locked if the adjustment knob is not completely tight. This ensures that the armrests do not suddenly shift while seated in or standing up from the chair.

– electric lift*

### **ENHANCES MOBILITY**

The wheels on the VELA Tango 100/200 have been specially designed to have a superior comfort.

Moreover, the rollers have rounded edges to prevent damage to shoes and feet. These features encourage the user to use the walk function, increasing mobility and thereby quality of life.

### **ELECTRIC HEIGHT ADJUSTMENT**

The electric height adjustment option enables the chair to be raised and lowered while the user is seated, or before the user sits down. This function is ideal in situations where it is difficult for the user to use his or her own weight to adjust the height of the chair, and it also facilitates standing up from the chair.

ERGONOMICS ENJOY PRIDE OF PLACE

# MEETS THE NEEDS OF THE INDIVIDUAL

## THE KEYWORD IS FLEXIBILITY

As people are individuals and have different needs, it is completely natural that VELA supplies products that meet the unique wishes and requirements of individual users.

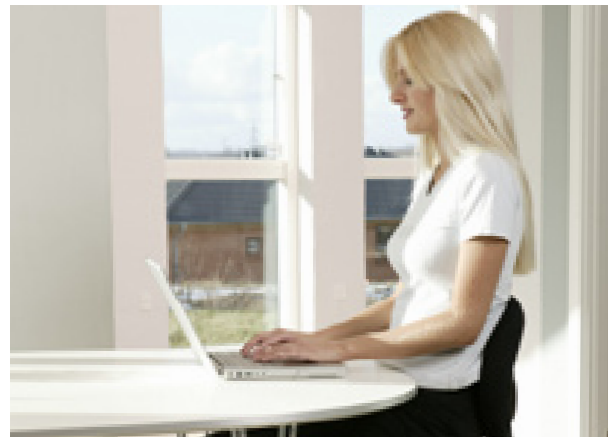

VELA Tango 100  
- gas lift

The VELA Tango range boasts outstanding flexibility as the chairs can be adapted to meet individual needs and wishes with regard to seat, back and armrests. There is also a choice in fabric.

## THERE ARE TWO STANDARD MODELS IN THE VELA TANGO 100 RANGE:

- VELA Tango 100 – gas lift
- VELA Tango 100E – electric lift

Both models can also be supplied with coxix seats. The chair is particularly suitable for users who need to sit with one or both of their legs at an open angle relative to their body. The two levers can be used independently of each other in stepless increments.

- coxix seat

**PATENTED LOCK PROVIDES GREATER FLEXIBILITY**

VELA's patented cone lock makes it possible to regulate the basic height of the chair by 12 cm. It can therefore be set to four fixed levels to meet individual requirements.

Self-locking armrest

Safety brake lever can be positioned on either the right or left side

Cone lock

Option of electric height adjustment

Option of anti-swivel lock

Option of electric brake

Option of foot ring

The wheels have been specially developed to have a superior comfort. They also have rounded edges to prevent damage to shoes and feet.

## VELA TANGO 200

VELA Tango 200 is specially designed for people who require extra support and comfort.

*VELA Tango 200 – gas lift*

## DESIGNED FOR PEOPLE WHO REQUIRE EXTRA SUPPORT

VELA Tango 200 has even more solid upholstery and comes in two models:

- **VELA Tango 200 – gas lift**
- **VELA Tango 200E – electric lift**

Both models can also be supplied with coxit seats.
